Handheld Programmer

- Easy speed programming
- Battery operated
- User-friendly navigation menu
- Protective boot with kickstand

For Energy Saving Motor (ESM) based products

Part no.

CBC 000-AF08-01

subject to alterations

Makes quick work of programming the two ESM selectable operating speeds. Eliminates the need for a personal computer, software, power adapter and 2nd cable. Good for production line or field service use. Automatic shut-off function for an extended battery life. Mini-USB connector for uploading software upgrades. Batteries, programming cable and operating manual included.
